

Open Letter from the Peace Keepers To The Men Of Our Community

We Must Save Our Sons

No More Killings

Lets Give Our Youth A Better Future

~~Peace Keepers~~
**This is an appeal to all Black Men
Calling Men ... Calling All Black Men**

The Answer is not a war on gangs, which is really a war on Black youth who think they are already at war with each other. It is urgent that Black men come together to stop the onslaught of violence and brutality sweeping through our communities, too many of our sons are killing each other, too many are in prison or on the way to prison; too many of our women, sisters and daughters are unsafe and disrespected. It is time for Black men to come together and take responsibility for what happens in the communities where we live. Our youth need desperately to see Black men working together to change the conditions they face daily and give them a reason to live.

This Is An Appeal to all Black Men Lets Make The Streets Safe Again Lets Treat Our Women With Respect Again

Lets guide our young back to sanity and make it clear that the fight should not be against each other. We are the targets of a vicious callous system. We can change that little by little, day by day, lets start today

If you want to save your sons call this number
