PROFESSIONAL EXPERIENCE

www.bigtimebiz.biz Web Sites Corporation Inc: 1/95 – Present: Graphic Designer Front & Back End Developer Online and Direct Marketing Executive. Designed & Developed HTML, D/HTML, X/HTML, XML, PHP CMS Sites. Utilization Of Assorted Java Script Libraries, SOURCEFORGE BB2 AND SIMPLE MACHINES PHP CMS. CHAT ROOM & BB FORUMS, JAVA, CSS, Now Under Construction Updating Site Utilizing The Award Winning [GOOGLE] JOOMLA PHP CMS Program, Worked With Drupal Knowledge of Word Press, TCP/IP, RSS, SWF, SWC, FLV, FTP, FLASH Web Sites With Videos and 3D Animations. ASP, Site Runs On Quad Speed LINUX/Apache Terabyte Server. Our 32 Category 1755 Page Site Documented Obtaining Over 3.5 Million Hits Globally Since 2001. Created Banner Ad's, Media Brochures, Biz Proposals, E-Mail Campaigns, Designed Entire Site From Scratch No Templates, Utilized some CSS Pages for consistency and uniformity throughout the site. My knowledge of Photoshop image processing optimization with compression techniques were integrated into print and flash animation banner ads. I've mixed audio music songs with sound effects and edited the files into streaming videos and animations to achieve the end result. Knowledge of object oriented programming, modules and continuing to update my knowledge on a daily basics.

GALAXY DINER BROOKLYN N.Y: 3/13 – 4/01/08: Installed Hardware & Configured Automated Restaurant Express Menu Ordering Computer Program. Designed restaurant interior table layout on screen for table waiters to identify & place customer orders from. System enables table waiters to increase productivity, by utilizing the systems component buttons, & database design to sell customers items off of the menu. Each sale allows owner to immediately know how much inventory was sold, & how much inventory is currently left in the stock room. I also configured the program to automatically reorder & pay for stock from approved vendors by e-mail. **Galaxy's** automated system is similar to what McDonalds, Wendy's & Burger King presently use to increase sales & productivity. Software provides owner with greater control over business, & allows the owner to operate his restaurant more efficiently with less people. Program keeps track of daily employee time sheets and at tax time gives the owner an itemized list of sales and tax collected from every sale transaction that took place during the year from customers & vendors, all condensed into a one page Quicken Computer Program Spreadsheet.

WORDNET COMPUTERS: 6/90 - 1/95

Building Computers From Scratch Installing Hardware & Software, Configurations of CD ROM Drive, Hard Drives, Drivers, Network Cards, Printers, Scanners, External Storage Devices, I/O, Firewalls, Anti-Virus, Updating and Maintaining Computers, Designing Web Sites & Connecting SQL Databases Connected To Search Form Handlers To Web Site, D/HTML, & HTML, JAVA, TCP/IP, ASP Utilized.
